#### Toch Smarturns: keeping you safe in the kitchen

*Toch Smarturns* transforms your stove to a smart stove, making cooking safer.

When the burners are turned on, a sensor monitors the stove user's movements.

If the stove is left unattended for an extended period, *Smarturns* will alert the stove user via a local alarm.

*Smarturns* can also alert the user and/or remote caregiver via mobile phone notifications.

#### Tochtech Technologies

At Tochtech our mission is to enable a future where seniors can live independently while feeling safe, cared for and connected for as long as they choose to.

To find out more about our other products please visit our website at *www.tochtech.com* 

We are working with the community to build better solutions. If you are passionate about enabling independent living for seniors we would like to hear from you.
