

Tochie

A truly personal Voice Aide

Remind. Schedule. Organize. Connect.

Never miss an appointment or taking your medication. Personalized voice recorded reminders will help seniors stay on top of schedules and appointments. Remote scheduling offers caregivers convenience when setting up and modifying reminders.

Voice-enriched

No more beeps and alarms. Recordings of a familiar voice of a family member or caregiver truly personalizes remote care.

The Quick Message function enables caregivers to send instant reminders, scheduled updates, or a quick greeting to stay connected.

Tochie is designed to personalize remote care. Its customized recordings, ease of use and event-driven capabilities enable remote care that is senior-friendly, effective and truly personal.

How is Tochie unique?

- Familiar voice reminders
 - Remote scheduling by caregivers
 - Instant push voice messages
 - Unlimited voice recordings
 - Does not require prompting by user to activate
 - Message confirmation
-

Tochtech
Technologies

At Tochtech our mission is to enable a future where seniors can live independently while feeling safe, cared for and connected as long as they choose to.
